Associate Securely, is a third party application which connects people on social media by doing the vetting for you.

For Example: I want to take John Smith out on a date, I can contact The Associate Securely Agency and they will contact him directly.

The Steps Are As Follows:

1. Find out if he's single and interested.
2. Have him interview to qualify to be entered in the database, sign a NDA, background check and answer preliminary questions.

If all is well then Associate Securely schedule the date.

3. The couple meets at an agreed upon location. L

This offers protection from desperate people, crazy exes and the clinically insane.

This security service can be used for employment, dating, platonic endeavors or simply reaching out to people who you do not want to have your actual contact information for your privacy and protection.

In this day and age, privacy is everything.
